Stem Zero is a simple and elegant range of highly sophisticated glassware made to satisfy the most discerning wine connoisseur. The glass is so fine and so light that it defies belief. Such is the remarkable quality of the glass that it creates a sensation of weightlessness, as if the wine is being held by an invisible force, allowing you to savour the aroma and taste of wine in a way that, until now, was considered unimaginable.

The lightness of the glassware focuses all attention on the senses. The stem is precise, the lip gossamer-thin, the bowl delicate. Everything works to accentuate touch, taste and smell.

NUDE's new Grace glasses reinterpret the traditional wine glass, offering an impressive design employing sharper and elegant lines. Grace also incorporates NUDE's well-known elements of clarity, strength and lightness, allowing wine to be enjoyed at the very highest level. Embracing a classic sense of sophistication, Grace is refined, natural and glamorous, much like the inspirational movie star herself...

# BEAUTIFULLY STRONG

Stem Zero

Introducing Stem Zero made with our 'Ion Shielding Technology'.  
Making it the world's toughest, yet finest lead-free crystal glass.  
You could say it is beautifully strong.

## Proven by strength tests

### Bowl Impact Test

35% stronger

Test is performed according to the standards below: DIN 52295 / Testing of glass – Pendulum impact test  
EN 12980:2000 / Materials and articles in contact with foodstuffs. Non-metallic articles for catering and industrial use. Method of test for the determination of impact resistance.

### Stem Impact Test

2x stronger

Test is performed according to the standards below: DIN 52295 / Testing of glass – Pendulum impact test  
EN 12980:2000 / Materials and articles in contact with foodstuffs. Non-metallic articles for catering and industrial use. Method of test for the determination of impact resistance.

### Free Fall Test

(In-house method):

Glass is released for a free fall from the height of 28 cm.

### Bending Test

(In house method): Up to 13°

Glass is bent at a certain angle from the top of the bowl, keeping the stem fixed.

### Dishwasher Safety Test

Up to 2,000 cycles

DIN 10511 "commercial dishwashing with glass washing machines - hygiene requirements, type testing"  
Water hardness: 0-1 dH Temperature of detergent tank: 55 °C Temperature of rinse agent: 65 °C  
Contact time per cycle: 120s Detergent: Industrial type, pH < 12.6

## Stem Zero

You could also say it's elegantly tough.

The mechanical properties of glass, that is to say the characteristics that determine its behaviour under stress, are strictly related to the amount, depth, and the distribution of any surface flaws that may exist. Any micro-cracks cause the glass to present what we call 'poor mechanical behaviour'. Simply put, they cause the glass to crack.

Studies on the mechanical strengthening of glass show that suppressing these micro-cracks can be achieved by introducing compressive stress on the glass surface. This limits the generation and propagation of cracks. Using this knowledge, our handmade STEM ZERO collection is strengthened by employing a special 'surface modification technology', based on an ion-exchange process. Larger ions are incorporated to the glass' surface structure, replacing the smaller ions which cause strains, thus increasing the strength of the glass by forming 'a compressive stress'. Simple is beautiful.

Stem Zero Trio is a brand new edition containing three matching glasses. Each shares the same exquisite design, the extraordinarily slim stem a product of expert technology, resulting in a glass featherlight to the touch but still incredibly strong. Each Trio glass is specifically created for either red or white wine and champagnes. Crisp, delicate, yet solid in the hand, they are a magnificent addition to the NUDE collection.

14 1/4 oz / 2 1/2" / 8 3/4"

Like a master key used to open any lock, the Master Glass can be used to drink any type of wine wherever you may be. Dining out or tasting with friends, the connoisseur need no longer rely on the choice of glasses available –or not available– in a pinch. When tasting at home, the six specially shaped Stem Zero glasses are each ideal for drinking either delicate or full-bodied whites, elegant or powerful reds or champagne. The Master Glass, however, has been hand-crafted in a single shape that represents the optimal compromise for drinking any wine, anywhere.
