The Wine Dispenser

Opening a new bottle of wine is always a magic moment, the aroma, the color and the taste will bring images, memories or simply fun and happy times.

Image reliving all this every time you pour a new glass of wine from your Wineemotion Wine dispenser.

That's what we are trying to achieve every time a wine dispenser leaves our factory.

...Reinvented.

Wineemotion Wine Dispensers have been serving, preserving and cooling wines for a decade now.

Since the first day we have been working to improve upon our products to give our customers an always more reliable product so that You can get the best glass of wine every time.

Challenges have been faced but finally we can offer the sum of all our research and hard work in the new line of Wine Dispensers, the SERIES 4!

SERIES 4 /SELF

otto DUAL TEMPERATURE

quattro

quattro DUAL TEMPERATURE

1. Horizontal Card Reader

The new Series 4 dispensers feature a horizontal card reader for easier access. Optional RFID card reading capability has also been added in order to reach a wider range of customers.

Thanks to the Wineidea software you'll be able to manage your customers and all the aspects of your wine business.

2. New Wine Tap Technology.

Wineemotion's goal has always been to find the best solution to preserve and pour wine without altering the taste. The latest version of our Wine Tap will serve this purpose even better, with a new motorized pump that cleans all the residues from the nozzle. This will improve wine preservation and dispenser reliability.

3. Motion Sensor.

In order to prolong the life of the displays and to save energy, new dispensers are equipped with a motion sensor

that activates the displays only when people are actually around it.

4. Color TFT Display.

All **SERIES 4** self service dispensers feature TFT color displays. Now white and red wines can be quickly discerned at a glance.

5. Dual Temperature

The eight bottle dispenser features two separate areas with independent compressors and cooling system so that ensure a completely separated management of the temperatures.

Silent, reliable and powerful, the new cooling system will keep your wines at the right temperature.

6. Frontal Air Flow.

The new design with the frontal air flow allows the dispenser to be fully encased without the need of leaving space on the top or the back for more creative design solutions.

otto DUAL TEMPERATURE

USE AND ACTIVATION SYSTEM

Dispenser works in behind the bar mode (no wine card) or self service with wine card (chip or RFID*) or barcode reader*.

SERVICE TEMPERATURES

Using the divider the left zone can be set from 6°C to 22°C.
Without divider from 15°C to 22°C

DOSAGES

Up to three different dosage through high quality mechanical buttons.

SOFTWARE CONNECTION

Connection between modules and software through LAN wire and WI/FI* with TCP/IP protocol.

BOTTLES LIFTING SYSTEM

Lifting system with pneumatic pistons.

WINE CARD

Chip or RFID* cards.

REFRIGERATION SYSTEM

Use of modern no-frost, noiseless professional cooling system.

GAS

Nitrogen or food grade Argon (cylinder or generator not included).

CUSTOMIZATIONS

Machine color can be customized, Front panel can be silkscreened*

LED ILLUMINATION

Intelligent led RGB system for an infinite variety of color combinations.

LOCKING SYSTEM

Automatic lock activated by Smart Card or RFID*.

ANTI CONDENSATION GLASS

Glass doors are treated with a special coating that prevents condensation .

*Optional
